July 12, 2005

Dear Judge Grant,

My name is Jewell Anderson. I live at 18487 San Jose, Lathrup Village, Michigan. I have three (3) adult children who are Diane, Bruce and David. My husband, Kenneth Anderson, died in December, 1986. Before my husband's death, I paid our monthly bills. My husband, in turn, handled all the other family financial matters. At no point in time during my adult life did I ever discuss with my neighbors any aspect of my husband's or my financial affairs. After my husband passed away, I continued to pay my monthly bills. Due to the fact I never handled any of the other family financial matters before December, 1986,

Mrs. Kenneth B. Anderson
18487 San Jose
Lathrup Village, Michigan 48076

I asked my son, David Anderson, who is a successful attorney, to start performing these tasks for me. My daughter, Diane, has lived in Australia for the past thirty (30) years and wasn't able to help me with these tasks. My son, Bruce, has lived in Central Michigan for the past thirty (30) years and likewise was unable to assist me with these financial matters.

Not only had I not performed any of my family's business affairs before my husband's death, and therefore I was unfamiliar with what to do in these areas, more importantly I hate having to barter or negotiate with sales people of any kind regarding my business.

transactions. David's willingness to perform these tasks for me free of charge for the last twenty (20) years has been a blessing of inestimable value. I can never thank David and his wonderful wife, Martha, enough for taking care of the stressful business matters for me!

Since my husband's death, David has skillfully handled the purchase of my cars, obtained my car insurance, taken care of my annual tax obligations, handled my estate planning needs, purchased from his own monies untold items for my home totaling in the tens of thousands of dollars, purchased a round trip for me to Melbourne, Australia costing over \$7500.00 of his own money, nursed me

to health when I was sick or had an operation, and the list goes on and on. I simply do not know what I would do if David ceased performing these valuable personal and financial services for me.

Since my husband's death, David has been a constant help and source of strength to me. David serves as my financial compass always pointing me in the right fiscal direction. Judge Grant, please allow David to continue to serve as my Conservator until I die. Since you appointed David to this important position, I have been well cared for by him. While I love all my children equally, David has always been there for me in good times and bad times and

containing to be the logical and
right choice to serve as my Conservator.

Thank you for honoring my
request to keep David as my
Conservator until I die. I have
written this letter to you voluntarily
and without pressure from any of
my children.

Very truly yours,
Jewell Ann Anderson
